## EDUCATION

- **2018-2020**
  **LA CONSOLACION UNIVERSITY OF THE PHILIPPINES**
  TVL- Computer Programming
- **2020-2024**
  **BULACAN STATES UNIVERSITY**
  Bachangelor's of Science in Infortmation Technology

## WORK EXPERIENCE

### Accenture in the Philippines

**Package Application Development Analyst (Promoted)**
March 2026 – Present

Developed and maintained web applications using Angular for front-end development and .NET C# for backend services. Worked with PostgreSQL databases and AWS Lambda integrations while collaborating with cross-functional teams to deliver application enhancements. Participated in Agile ceremonies and used Azure DevOps to manage User Stories, Bugs, Tasks, source control, code reviews, and pull requests throughout the software development lifecycle.

**Associate Software Engineer**
August 2024 – March 2026

Assisted in the development and maintenance of web applications using Angular and .NET C#. Supported backend API development, performed database operations with PostgreSQL, and participated in testing, debugging, and issue resolution. Worked within an Agile environment and utilized Azure DevOps for work item tracking, version control, and collaboration.
